Mr. Richard C. Bachman
Director, General Services Division
U.S. Dept. of Agriculture/ARS/GSD
6505 Belcrest Road
Hyattsville, Maryland 20782

Dear Mr. Bachman:

The required 30 day public notice for the Yakima Agricultural Research Lab (YARL) closure plan ended on January 15, 1990. The U.S. Environmental Protection Agency (EPA) did not receive any comments from the public on this plan. Therefore, this letter serves as EPA approval of the September 12, 1989, YARL closure plan.

The plan should now be implemented in accordance with its schedules and conditions. If you or your staff have any questions during the implementation of the closure plan contact Jeff Rodin, in the RCRA Compliance Section at (206) 442-2859.

Sincerely,

Michael F. Gearheard
Chief, Waste Management Branch
